

DSJIE Seeks Research Relevant to Teaching and Learning Issues in the Decision Sciences

The *Decision Sciences Journal of Innovative Education* is a new peer-reviewed journal published by the Decision Sciences Institute. Its mission is to publish significant research relevant to teaching and learning issues in the decision sciences. The decision sciences is the union of the quantitative and behavioral approaches to managerial decision making, encompassing all of the functional areas of business, including (but not limited to) accounting, business strategy and entrepreneurship, economics, finance, international business and globalization, marketing, MIS/DSS and computer systems, organizational behavior/organizational design, operations and logistics management, quantitative methods and statistics.

Types of articles suitable for publication in the *Decision Sciences Journal of Innovative Education* include the following.

An empirical research article describes high-quality empirical research related to innovative education in the decision sciences.

A case study research article describes high-quality research related to innovative education in the decision sciences that employs a class as a case.

A conceptual/theoretical article describes an approach to innovative education or a learning issue relevant to the decision sciences.

A teaching brief *briefly* describes an innovative approach for teaching in the decision sciences.

Website

The *Decision Sciences Journal of Innovative Education* Web site at <http://www.mba.wfu.edu/dsjie/> will contain abstracts of all empirical research, case study research and

conceptual/theoretical articles, as well as teaching briefs in their entirety. It contains information for contributors and a site where authors can check on the status of articles in process. The Website also contains announcements about upcoming events related to innovative education in the decision sciences and a section for personal news about DSI members, such as news about winners of teaching awards. Please send your news and announcements to the editor, at the address below.

NAMES IN THE NEWS

CAROL LATTA, Executive Director, Decision Sciences Institute, clatta@gsu.edu

In case you have not heard, it does pay to be an officer in Southeast DSI. **Max Burns**, Georgia Southern University, 1998-99 SEDSI president and "many-times" local

arrangements chair, has been elected to the U.S. House of Representatives (Georgia District 12) Nice going, Max! maxburns@gasou.edu

Jagan Iyengar, Associate Professor at University of Wisconsin, MCS Program, has completed a senior faculty fellowship at NASA Langley during the summer

of 2002. Jagan worked in the area of aviation decision making under adverse weather conditions. His work at NASA

Langley was followed by his continuing research publications in the form of four research papers for NASA publications. iyengarj@mail.uww.edu

Clive Sanford, University of South Florida, the Institute's former job placement services coordinator and computer services coordinator, is off to Eastern Europe to work for the Peace Corps. sanford@groucho.bsn.usf.edu

Shannon Taylor, Montana State University, reports in from his latest hunting adventure in Wyoming with his wife, Diane, and his brothers: "Diane made a great 255-yard shot on a great bull just at sunset. Unfortunately, we were three-and-a-half hours from camp in the steepest, deepest terrain God put on earth, getting in well after dark. Then up the next day at 5:30 a.m. It took five hours on horseback to fetch it, but it

was worth it. Maybe the best week of my life. I have a whole new respect for wilderness after this hunt. There should be some places that are not developed at all, left for wild elk and elk hunters and huntresses." staylor@montana.edu
