UNIVERSITY OF SOUTH FLORIDA
Information and Decision Sciences (ISDS) Department
Instructor in MIS (Faculty Position #4281)

The Information Systems and Decision Sciences (ISDS) department at the University of South Florida (USF) is searching for an outstanding candidate to fill a faculty position at the rank of Instructor. Candidates must at minimum have work experience related to Information Systems, a Masters degree from an AACSB accredited institution in Information Systems or a related discipline such as Statistics, Operations, Management Science or Computer Science with at least 18 credit hours of Information Systems courses, and undergraduate level teaching experience.

Preference will be given to candidates with a track record or a willingness to undertake activities in support of student success initiatives.

The ISDS department includes faculty members who engage in fundamental information systems and analytics research, collaborate in interdisciplinary research programs, and publish in the leading journals in information systems and analytics. The department offers graduate programs such as Ph.D., MS in MIS, and MBA with MIS concentration, and a highly competitive undergraduate information systems program that was recently ranked #25 by Bloomberg Businessweek. More information can be found on our departmental website at http://www.usf.edu/business/departments/isds/index.aspx.
