Job Title: Assistant/Associate Professor, Decision Sciences

Drexel University was founded in Philadelphia in 1891 to provide educational opportunities for women and men of all backgrounds. Now, as a comprehensive research university with over 26,000 students across its 15 colleges and schools, Drexel’s strength in co-operative education, experiential learning, and translational research provides its students and faculty with excellent opportunities for career success. Known for innovation and dramatic growth, Drexel has earned top rankings from U.S. News & World Report, appearing among its Top 100 National Universities for the past seven years and on its Best Colleges list for the past 11 years.

Job Overview:
The Department of Decision Sciences & MIS at the LeBow College of Business at Drexel University is seeking qualified applicants for a tenure-track faculty position at the assistant/associate professor level in the field of Business Analytics for the 2015-2016 academic year with a starting date as early as September 1, 2015. An active research area in Business Analytics is welcome.

Qualifications:
Successful applicants must have completed a Ph.D. in business analytics, applied statistics, decision sciences, or a related area by their starting date. Candidates must demonstrate evidence of (or potential for) publishing in top tier journals. In addition, teaching excellence at all levels of instruction is desirable.

Essential Functions:
Candidates must be interested in teaching courses in Business Analytics. Teaching at the undergraduate and graduate levels, as needed, is also a requirement for this position.

Supplemental Information:
The online application should include: 1. A cover letter summarizing the applicant’s qualifications, 2. Current CV, 3. Representative publications, 4. List of 3 references with contact information, 5. Summary statements describing research and teaching philosophies.

The College has an outstanding reputation for research, leadership, corporate partnerships and technological strengths. The faculty in the Decision Sciences & MIS Department (http://www.lebow.drexel.edu/academics/departments/decision-sciences/faculty) is a diverse group with expertise in MIS, operations management, operations research, and statistics.
Drexel is a privately endowed university founded in 1891 currently comprised of 13 colleges and schools with approximately 25,000 students. Drexel has one of the largest undergraduate cooperative education programs in the nation, with formal relationships in place with over 1,500 local, national, and multi-national companies. Drexel is located on Philadelphia’s Avenue of Technology in University City and at the hub of the academic, cultural, and historical resources of the nation’s fifth largest city. Philadelphia is also the midpoint of a mid-Atlantic technology corridor that stretches from New York City (100 miles north) to Washington, D.C. (135 miles south).

Drexel University offers an attractive benefits package including tuition remission, a generous retirement package with matching funds (up to 11 percent) and an opportunity to join a talented team of professionals directly helping the University achieve its record growth and quality reputation.

Drexel University is an Equal Opportunity/Affirmative Action employer, welcomes individuals from diverse backgrounds and perspectives, and believes that an inclusive and respectful environment enriches the University community and the educational and employment experience of its members. The University prohibits discrimination against individuals on the basis of race, color, national origin, religion, sex, sexual orientation, disability, age, status as a veteran or special disabled veteran, gender identity or expression, genetic information, pregnancy, childbirth or related medical conditions and any other prohibited characteristic. Please visit our website to view all University Policies and Workplace Postings.

Background investigations are required for all new hires as a condition of employment, after the job offer is made. Employment will be contingent upon the University’s acceptance of the results of the background investigation.
