Assistant/Associate Professor of Management Science

The Department of Information Systems and Decision Sciences at California State University Fullerton is seeking qualified candidates for a tenure-track faculty position in Management Science at the assistant or associate professor rank. The Department is seeking faculty candidates who have a strong ongoing commitment and demonstrated potential to conduct research, obtain external grants and publish in top journals. The candidates are expected to be innovative teachers with strong instructional skills at the graduate and undergraduate levels. The Department’s faculty members conduct high quality research and publish in leading Management Science, Big Data and Business Analytics outlets. They also regularly teach undergraduate and graduate courses, advise students, serve on academic committees and contribute to Department, College and University governance.

Qualifications: A successful candidate must have:
- A Ph.D. degree, by the beginning of fall semester, in Management Science or a field related to quantitative aspects of Big Data and Business Analytics
- Demonstrated potential to be an effective teacher of graduate and undergraduate courses based on the department’s needs
- Evidence of competency to publish in top Management Science, Big Data and Business Analytics journals and to acquire external funding; and
- The ability to interact effectively with a culturally diverse population of students and colleagues.

Rank & Salary: This is a tenure-track position. Salary is competitive, commensurate with rank, qualifications and experience. Research grants and additional teaching in summer are typically available. The University offers excellent, comprehensive benefits including health/vision/dental plans, spousal, domestic partner and/or dependent fee-waiver, and access to campus child-care, a defined-benefit retirement through the state system, along with optional tax-sheltering opportunities. For a detailed description of benefits, go to http://hr.fullerton.edu/documents/benefits/Faculty_Unit_3.pdf

The Department: The Department consists of a diverse group of faculty with specialties in areas of Management Information Systems, Business Statistics and Management Science. We offer three concentrations: Information Systems, Business Analytics and Decision Sciences. We teach in the undergraduate business and MBA programs as well as in two specialized Masters degrees. The Department currently offers a core course in each of these three areas, each of
which is required by all business majors. The Department has received national and international recognition through faculty publications, presentations, and editorial activities. For more information about the department, faculty and our offering of courses please visit http://business.fullerton.edu/isds/

Appointment Date: August 2015

Application Procedure: Review of applications for the position begins immediately. The review process will conclude after the finalists are selected. Applications received after the selection will not be considered for the position. To be considered, qualified candidates must submit a cover letter describing teaching and research experiences and interest, a current curriculum vitae, and contact information of four references. The finalists for the position will be contacted and required to submit original graduate transcripts, and four current letters of recommendation. All application materials should be submitted electronically. See more at: http://diversity.fullerton.edu/jobs/ft/management_science.asp
