The Information Systems and Decision Sciences Department (ISDS) at Louisiana State University's E. J. Ourso College of Business is now accepting applications from qualified individuals for a full-time tenure-track Assistant Professor position starting Fall, 2015.

As the flagship institution of the state, the vision of Louisiana State University is to be a leading research-extensive university, challenging undergraduate and graduate students to achieve the highest levels of intellectual and personal development. Designated as a land-, sea-, and space-grant institution, the mission of Louisiana State University (LSU) is the generation, preservation, dissemination, and application of knowledge and cultivation of the arts. In implementing its mission, LSU is committed to offer a broad array of undergraduate degree programs and extensive graduate research opportunities designed to attract and educate highly-qualified undergraduate and graduate students; employ faculty who are excellent teacher-scholars, nationally competitive in research and creative activities, and who contribute to a world-class knowledge base that is transferable to educational, professional, cultural and economic enterprises; and use its extensive resources to solve economic, environmental and social challenges. The quality of LSU's academics is reflected in the number of nationally ranked programs and nationally recognized scholars at LSU.

The ISDS department is an academically diverse, professionally active group of 11 full-time faculty and 6 full-time instructors offering Bachelors (with MIS and Analytics concentrations), Master's (MSA), and Doctoral programs. Faculty in the department also teach across all MBA formats (traditional daytime, evening, weekend and online). The Ph.D. degree program is very active and is the only Ph.D. program in MIS in the State of Louisiana. The ISDS faculty are active in research, teaching, service, and outreach, fostering productive relationships with business, government, and universities around the world. For further information about the Department, contact: Dr. Helmut Schneider, ISDS Department Chair, at hschnei@lsu.edu, or Dr. Ed Watson, Search Committee Chair, at ewatson@lsu.edu. Candidates are encouraged to visit university (www.lsu.edu), college (www.bus.lsu.edu), and ISDS (http://business.lsu.edu/Information-Systems-Decision-Sciences/Pages/ISDS.aspx) websites.

**Responsibilities:** The incumbent will fill a leading role in the growth and development of the ISDS department and the College. The position will require the incumbent to teach in the graduate and undergraduate levels of the department and to also conduct research that will enhance not only their record of excellence, but also the ISDS department.

**Required Qualifications:** Ph.D. in Information Systems and Decision Sciences or related field; three to five years of experience teaching at a college level and record of potential research.

**Preferred Qualifications:** Applicants should have earned a Ph.D. degree in Information Systems and
Decision Sciences (ISDS), or related field, and have research and teaching interests in business intelligence and analytics. Candidates should have begun to establish a record of excellence in both research and teaching, or show evidence of this potential. Candidate will be expected to have a research record of publication in top tier ISDS journals and have a track record of teaching excellence.

All qualified applicants are urged to apply for this position. Appointment will be based on qualifications as they relate to the position requirements without regard to race, color, national origin, religion, gender, age, disability, or veteran status. An offer of employment is contingent on a satisfactory pre-employment background check. Application deadline is January 30, 2015, or until a candidate is selected.
