Lehigh University
Tenure Track Assistant Professor in Information Systems

Lehigh University's Department of Management seeks to fill one tenure track position in information systems at the assistant professor level beginning August 2015. We are seeking candidates who have the ability to conduct scholarly research aimed at publication in top journals and capability of outstanding classroom performance at both the undergraduate and graduate levels. Possible teaching areas include data analytics, system analysis and design, and/or demand planning. Interdisciplinary interest between information systems and supply chain management is highly desirable. Team teaching and web-based instruction are likely. The candidate must hold a Ph.D. in Information Systems or a related area by the time of employment in August 2015.

Lehigh University is located in Bethlehem, PA (pop. 73,000) which is in the center of the Lehigh Valley (pop. 820,000). A convenient location between New York City and Philadelphia provides access to many corporations and financial institutions. The Lehigh Valley is economically vibrant and provides the best of urban, suburban, and rural living (low cost of living, open space, and a rich array of cultural activities in the area and nearby). Founded in 1865, Lehigh University is a private research institution with about 4,900 undergraduates and 2,200 graduate students. Approximately 1,200 undergraduates, 450 graduate students, and 81 full time faculty comprise the College of Business & Economics. In addition to offerings at the undergraduate level, an MBA, M.S. programs in Accounting and Information Analysis, Economics, and Analytical Finance, and an economics-based Ph.D. program are also offered. Joint programs exist between business and engineering both at the undergraduate and graduate levels.

Lehigh is ranked 40th among national research universities in the 2015 US News & World Report survey, ranked 31st in Bloomberg BusinessWeek’s top undergraduate business programs (12th in part-time MBA program) and placed in the most competitive category in both Peterson’s Guide and Barron’s Profile of American Colleges. Further information about the College of Business & Economics can be found at: www.lehigh.edu/business.

Information about the Department of Management can be found at: http://www4.lehigh.edu/business/academics/depts/management. The Business Information Systems (BIS) program in the department is designated as STEM.

Review of applications will begin immediately and will continue until the position is filled, but materials should be received by January 15, 2015 for full consideration. To apply, please electronically send a letter of interest, curriculum vitae, samples of scholarly work, recent teaching evaluations, and three references through https://academicjobsonline.org/ajo/jobs/4759. For additional information, contact Professor Oliver Yao, Department of Management, College of Business & Economics, Lehigh University, 621 Taylor Street, Bethlehem, PA 18015-3117, 610-758-6726, yuy3@lehigh.edu.

Lehigh University is an Equal Opportunity/Affirmative Action Employer. Women and minorities are strongly encouraged to apply. Lehigh offers excellent benefits, including domestic partner benefits. Please see: http://www.lehigh.edu/~inprv/faculty/worklifebalance.html.

Department representative will be at the DSI annual conference for interviews. Please submit complete application by Nov 1 for consideration, and indicate if you will be at the conference.
